FOR YOUR SMALL OFFICE AND  
COLLABORATIVE WORKSPACE NEEDS

# EXCEPTIONAL OFFICE PERFORMANCE

As our business is totally focused on the needs of the office, we have designed the **FLAVIA CREATION® 150** specifically for small offices and collaborative areas:

- Directly contributes to increased office interactions, higher levels of engagement and satisfaction, and improved productivity and morale\*
- Sleek and compact design to fit your small office or collaborative workspace
- Brews a full range of single-serve drinks including coffee shop specialties to satisfy everyone's needs
- Brews directly from pack to cup, eliminating taste contamination from one drink to the next

It will be your partner in hitting sustainability targets too:

- An energy-saving mode that switches off energy-draining devices after 2 hours (the boiler and lights)
- Designed to heat only minimal amounts of water so energy is conserved
- Energy-efficient LED indicators

## FLAVIA® BREWS BETTER

Our innovative single-serve brewing process:

STEP

1

**SOURCE:** We start with the highest quality ingredients – freshly roasted and ground coffee, real-leaf and herbal teas and premium hot chocolate.

STEP

2

**SEAL:** We pack our carefully sourced ingredients into the unique FLAVIA Freshpack locking in their freshness and flavor.

STEP

3

**SERVE:** We specially design the FLAVIA Freshpack to work with the FLAVIA Brewer. Together they create an optimal brew cycle within every pack. Every drink is brewed directly from pack to cup with no taste contamination, so your tea will never taste like the coffee that was made before it and vice versa.
