Tassimo Professional T-300 Gourmet Single Cup Brewer

- Tassimo Professional is a single-serve gourmet coffee brewing system. Unlike competitive offerings, Tassimo Professional T-Discs are incompatible with home brewers, insulating you and your business from pilferage and cross-channel issues.
- With one touch of a button, a delicious cup of coffee, tea, hot chocolate, espresso, cappuccino or latte made with real milk is delivered. It's almost as though there's a *Barista Inside*.
- Scannable T-Discs contain a precise amount of premium ground coffee, tea or chocolate, as well as brewing instructions for the machine.
- Bar code reader technology controls water temperature, volume, flow rate and time.
- Streamlined design requires less space than competing systems.
- LCD display is user-friendly and provides simple, easy-to-follow instructions.
- Touch-sensitive start button simplifies the brewing process through one-touch activation.
- Espresso is brewed on-demand, using technology not found in competing office-coffee systems.
